

DPI Residential Historical Rate Chart 2011 - 2012 • Connecticut

**Consistent Energy...
Consistent Savings.**

UI customers can enjoy a sizeable savings with the current Discount Power, Inc. product mix.

Variable Rate: The product that launched an industry provides the ultimate in flexibility. Competitively priced with the ability to capture price decreases as they occur.

Variable Rate with a Cap: Pioneered by DPI, this product provides an extremely competitive rate with the security of a cap. The current product guarantees savings for consumers throughout 2011.

Fixed Rate: Designed to provide the consistency of price that has been the hallmark of the Discount Power brand since its inception, this new product comes with all the great other Discount Power residential product benefits; ease of enrollment, no signing or cancellation fees and participation in our unique Dr. Energy Saver Home Energy Check-Up and Points Engine continuity rewards programs.

* \$ per kWh
**Savings based upon average CT household usage of 750 kWh per month vs current UI standard residential rate.
